Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech. Major	Indian Institute of Technology Indore	9.22 (Current)	2023 - 2027
Senior Secondary	CBSE Board	94.2%	2023
Secondary	State Board	99.83%	2021

Experience

- **D. E. Shaw & Co.** May 2026 - July 2026
  Technological Developer Intern, Core Tech *Bengaluru, India*
  – Engineered a seamless data pipeline using **Java** and **Spring Boot**, integrating the **20-year-old core automation platform** with its proprietary **infrastructure alerting system** to centralize and surface critical operational alerts.
  – Evaluated existing internal services to design and implement an optimized architecture, ensuring low-latency processing for both **real-time event streaming** and **high-volume snapshot updates**.
  – Architected a comprehensive pipeline proposal to orchestrate runtime anomaly workflows across the batch ecosystem, defining execution triggers, event timing, and delivery mechanisms to surface risk signals to end-users.

Projects

- **CodeCrux – Competitive Programming Analytics Platform** *Github*
  – Created a competitive programming portal using the **MERN stack** and **JWT authentication** to securely manage user profiles, dynamic problem streaks, and personalized favorites lists.
  – Integrated the **Clist.by API** to aggregate contest schedules across Codeforces, LeetCode, and AtCoder, providing tag filtering and automated Google Calendar reminders.
- **FinSight – AI-Driven Financial Risk & Forecasting Product** *Github*
  – Architected an end-to-end predictive modeling pipeline for 10 banking institutions using a reinforcement-weighted ensemble of **LSTM and Random Forest** models, achieving a normalized MAE of 0.01–0.03.
  – Implemented a high-compute **Monte Carlo simulation** engine generating 150,000 probabilistic price paths (500 paths over a 30-day horizon) to evaluate real-time aggregate **risk metrics** (VaR, CVaR, Sharpe ratios) for portfolio analysis.
- **EmpathEcho – Real-Time Conversational AI System** *Github*
  – Structured a real-time conversational interface utilizing **Flask and WebSockets** for bi-directional audio streaming, featuring a 5-second automatic silence detection mechanism for low-latency backend execution.
  – Orchestrated the pipeline linking **OpenAI Whisper** (STT), **Gemini Pro**, and a fine-tuned **Hugging Face Transformers** model to classify 6 emotional states and output synthesized audio via gTTS.

Technical Skills

- **Languages:** C/C++, Java, Python, JavaScript, SQL
- **Web Dev:** Spring Boot, Node.js, Express, Flask
- **Tools & Cloud:** Git, Linux, REST APIs, API Design
- **Data & ML:** NumPy, Pandas, MATLAB
- **Simulation:** Monte Carlo Methods, Stochastic Models
- **Core CS:** OOPs, System Design, DSA, CP

Key courses taken

- **Computer Science**: Operating Systems, Computer Networks, Data Structures, Design & Analysis of Algorithms, Blockchain, Optimization Algorithms, Computational Intelligence.
- **Mathematics**: Stochastic Calculus, Monte Carlo Simulation, Data Science, Probability & Statistics, Statistical Distribution Theory, Statistical Inference, Regression Analysis, Discrete Mathematics, Linear Programming.

Positions of Responsibility

- **USG of Public Affairs**, MUN, IIT Indore. Led outreach and stakeholder communications. *2024 - 2025*
- **Volunteer**, Avana Club, IIT Indore. Supported execution of social welfare initiatives. *2024 - Present*

Achievements

- **DSA & CP:** Solved 1200+ problems across LeetCode, Codeforces, CodeChef, and GeeksforGeeks.
- **Ratings:** LC: **1781** | CC: **3⋆ (1604)** | CF: **Specialist (1541)** and Ranked 800, Top 2.7% of 29.3k+ in Round 1115.
- **Academic Merit Scholarship:** Awarded for 3 consecutive years, ranked among the top 20% female students.
- **National Semi-Finalist (2025):** Advanced to the semi-finals of Flipkart Grid 7.0 conducted nationwide.
- **Codess Cafe:** Selected as Mentee ('24) and promoted to Mentor ('26) to guide women in tech.
- **GSSoC'25 Contributor (2025):** Selected as an open-source contributor for GSSoC.
